

PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

C-569-WLSSD Gravity WW Interceptor Improvements

Description

The project consists of constructing a Surge Basin adjacent to the Gary Sanitary Lift Station to accept high flows during storm events. Following the peak event, the Lift Station will then regulate flow from the basin into the sanitary sewer system for treatment. Construction of this Surge Basin will prevent system overflows, thereby reducing the threat to human health and the environment.

Congressional Interest

Nolan (MN-8); Senator Franken (MN), Senator Klobuchar (MN)

Location Map & Picture

Non-Federal Project Sponsor

Western Lake Superior Sanitary District

Project Authority

Section 569, Water Resources Development Act of 1999, PL 106-53 As amended – Environmental Assistance to Northeastern Minnesota.

Funding	Total	Federal	Non-Federal
